**Make Checks Payable to:
Julie Braud Benefit Account**

At the drop of a cup, Julie Braud's world changed forever! Literally! In November 2018, a cup slipped from her left hand during a celebration of life for a dear loved one. The strength of her left hand continued to deteriorate over the next few days, which led her to seek medical treatment. Over the course of a few weeks, she was referred to 3 different doctors until the diagnosis of a brain tumor was found. In mid-December, she was sent to West Jefferson where she was scheduled for a craniotomy. The surgery was unsuccessful in the removal of her tumor, but allowed her the mobility in keeping use of her left leg. At that time, she was diagnosed with Grade 4, Glioblastoma. In order to treat this beast, she must undergo 7 weeks of radiation treatments while taking chemotherapy! Julie is strong and faithful that she will beat this with such love and support of her family and friends that surround her.
